- **Home:** 2000 Maribor, Slovenia

ABOUT ME

I'm an open-minded individual with a penchant for simplicity and peace. I place great value on living an intentional life guided by Buddhist principles, and strive to cultivate a mindset of continuous learning and personal growth. My interests span a broad spectrum, from gaming, diving into a good book, listening to chill music, watching educational podcasts and docuseries, engaging in various sports, exploring new places, and encountering nonconformist people.

In an ideal world, I envision a society where the pursuit of money and materialistic possessions is not the ultimate ambition, and where exploitation does not mar human relations. I dream of a world that values truth, empathy, kindness, and fairness over all else.

I live by the principle of Newton's 3rd law: reciprocity. The respect, kindness, and fairness I receive inform how I respond. I strive to uphold fairness and empathy in my interactions and look forward to meeting individuals who share the same values. In other words, I give what I get.

SKILLS

“Hard” skills:

- Extensive experience in creating modern websites and web applications with **HTML**, **CSS**, **Sass**, **JavaScript**, **TypeScript**, **React**, and **Next.js**
- Strong understanding of React library best practices and conventions
- Strong understanding of front-end methodologies (**BEM**, **SMACSS**, **Atomic Design**, ...), and accessibility standards (**WCAG**)
- Proficiency in using development tools like **npm**, **yarn**, **gulp**, **Webpack**, **Docker**, as well as version control systems like **Git**
- Extensive experience in working with **APIs**, including **REST** and **GraphQL (+ Apollo)**
- Extensive experience in optimizing speed (**Lighthouse**, **PageSpeed Insights**), **SEO**, and cross-browser and cross-device testing
- Experience with back-end technologies such as **(My)SQL**, **Supabase**, **Firebase**, **PHP**, and **Python**, coupled with substantial expertise in CMS platforms like **Drupal** and **WordPress**
- Experience with design tools like **Adobe XD**, **Figma**, **Photoshop**, and a strong understanding of UI/UX principles
- Competence in **Agile Scrum methodology**, project management tools, and team communication platforms

“Soft” skills:

- Fluency in **English**
- Consistent **reliability**, **dedication**, and **self-motivation**
- Inherent **curiosity** with a constant desire to learn and improve
- **Methodical** and **organized** in approach, with a strong attention to detail
- Possessing an **open-minded** and **fair** attitude, underscored by a commitment to **kindness** in interpersonal interactions
- Natural ability to **understand** and relate to diverse human behavior and perspectives
